

After many years of experience with the Bony Obliteration Tympanoplasty technique / BOT / at our department, with excellent results / very low recurrent and residual rate / as shown during the long term follow up by non-EP Diffusion Weight MRI, we are proud to present the second Antwerp Bony Obliteration Tympanoplasty Course / Antwerp BOT Course.

In our fully equipped Skillslab / [www.skillslab-antwerpen.be](http://www.skillslab-antwerpen.be) / we will teach you all the practical skills needed to perform a state of the art bony obliteration. In short theoretical lectures we will explain our philosophy. The radiological pre-operative work-up and postoperative follow-up, which are a necessary prerequisite for safely and successfully applying the BOT, will be taught by our world leading radiologists.
