

After many years of experience with the Bony Obliteration Tympanoplasty technique / BOT / at our department, with excellent results / very low recurrent and residual rate / as shown during the long term follow up by non-EP Diffusion Weight MRI, we are proud to present the third Antwerp Bony Obliteration Tympanoplasty Course / Antwerp BOT Course. In our fully equipped Skillslab / www.skillslab-antwerpen.be / we will teach you all the practical skills needed to perform a state of the art bony obliteration. In short theoretical lectures we will explain our philosophy. The radiological pre-operative work-up and postoperative follow-up, which are a necessary prerequisite for safely and successfully applying the BOT, will be taught by our world leading radiologists.

under the auspices of

highlights

Middle Ear Biology & Pathology / Retraction Pocket, Cholesteatoma, COM / Radiology in COM / Cholesteatoma Surgery / Canal Wall Up, Combined Approach / Canal Wall Reconstruction / Tympano-Ossicular Reconstruction / Paratympanic Bony Obliteration

registrations

Registrations are based on a first registered first served basis. The course fee - dinner included - is 1.975 euro.
